INTRODUCTION

This, the thirty-eighth, annual directory of officials and organizations concerned with wildlife protection and conservation has been compiled to meet the needs of officials charged with the administration and enforcement of game laws and for the convenient use of persons desiring to communicate with officials and organizations concerning wildlife conditions in the several States, the Canadian Provinces, Newfoundland, and Mexico. It follows the same general form of previous editions¹ and includes only those organizations that are national or State-wide in character.

Persons contemplating hunting or fishing trips should communicate with the appropriate State officials for information as to the provisions of State laws before they undertake to hunt or fish. In all the States and Canadian Provinces the game laws are published in pamphlet form and may be obtained upon request to the proper officials, listed herein.

Communications concerning violations of Federal game laws and regulations should be addressed to the regional directors of the Bureau of Biological Survey in the several areas, listed on page 2.
